Titles of articles

Accumulative uncertainties in the quantitative evaluation of signals from fish, M.A. Do, A.M. Surti 217
Acoustic parameter measurements by acousto-optic diffraction techniques using a light-beam of one acoustic wavelength width, A.Tanone, Y. Ohtsuka 206
A cylindrical lens for a high power transmitting array in a sector scanning sonar, L.A.A. Warnes, C.R. Hood 123
Analysis and design considerations for real-time system for non-destructive evaluation in the nuclear industry, S. Ganapathy, W.S. Wu, B. Schmult 249
A new ultrasonic technique for the measurement of liquid level, A.B. Gillespie, M.O. Deighton, R.B. Pike, R.D. Watkins 13
An ultrasonic pulse compression system for non-destructive testing using maximal-length sequences, F.K. Lam, M.S. Hui .107
Aperture apodization to reduce the off-axis intensity of the pulsed-mode directivity function of linear arrays, P.J. 't Hoen .231
Application of signal processing to acoustic emission signals emitted by steel specimens during tensile tests, I. Lanchon-Magnin, P. Fleischmann, D. Rouby, R. Goutte 18
A practical ultrasound axicon for non-destructive testing, S. Nagai, K. Iizuka .265
A proposed method for generating and receiving narrow beams of ultrasound in the Fast Reactor liquid sodium environment, R.D. Watkins, M.O. Deighton, A.B. Gillespie R.B. Pike 7
Bulk viscosity and relaxation frequencies in molten alkali nitrates, P.Cerisier, B. Blin 130
Calculations of the backscattering and radiation force functions of spherical targets for use in ultrasonic beam assessment, R.C. Chivers, L.W. Anson 25
Characteristics of tissue equivalent gels intended for passive test procedures of ultrasonic scanner performances, P.E. Schuwert 275
Computing particle velocity and intensity in diffracting systems, J.A. Archer-Hall, D. Gee 224
Cyclic stress-strain curves and internal friction of steel at ultrasonic frequencies, A. Puskar 118
Development of methods of precise ultrasonic measurements in small volumes of liquids, A.P. Sarvazyan 151
Diffraction of light by adjacent fundamental and second or fourth harmonic ultrasound beams: comparison of exact and simplified formulae with experiment, O. Leroy, A. Sliwinski, P. Kwiek, A. Markiewicz 135
Diffraction of light by phase-shifted adjacent ultrasonic beams; $\rho \gg 1$, O. Leroy, E. Blomme 155
Diffraction phenomena in the field of a circular piezoelectric transducer viewed in the time domain, R.E. Challis 168
Effects of ultrasound and mechanical agitation on adsorption of 4-(2-pyridylazo) resorcinol (PAR) by amberlite XAD-2, Z. Wang, K.L. Cheng 215
Flaw-to-grain echo enhancement by split-spectrum processing, V.L. Newhouse, N.M. Bilgutay, J. Saniie, E.S. Furgason 59
Mechanical measurement of the parameters in a pseudo-stationary ultrasonic field in liquids, I Gabrielli, S. Zugna 69
Observing ultrasonic wave propagation by stroboscopic visualization methods, K.G. Hall 159
Pre-transitional effects in a nematic and a polymesomorphic liquid crystal, A.K. George, A.R.K.L. Padmini 271
Stochastic frequency-domain tissue characterization: application to human spleens 'in vivo', F.G. Sommer, L.F. Joynt, D.L. Hayes, A. Macovski 82
Surface acoustic wave studies of subsurface damage, A.D. Hyndman, S.B. Palmer ...73
The attenuation of Lamb waves in the presence of a fluid, R.D. Watkins, W.H.B. Cooper, A.B. Gillespie, R.B. Pike 257

The effect of grain size distribution on the frequency dependence of the ultrasonic attenuation in polycrystalline materials, R.L. Smith 211
The effect of surface cleanness of thin defects on the reflection of ultrasound, A.V. Clark, H.H. Chaskelis 173
The propagation of ultrasound in porous media, C.M. Sayers, R.L. Smith 201
The use of antiphased zones in an acoustic Fresnel lens for a scanning sonar transmitter, L.A.A. Warnes 184
Ultrasonic Fresnel lenses, part II - cylindrical lenses, J. Szilard 103
Ultrasonic inspection of stainless steel butt welds using horizontally polarized shear waves, C.M. Fortunko, J.C. Moulder ...113

Research notes

Improvement of portable radiation force balance design, C.V. Cornhill 282
The voltage sensitivity of miniature piezoelectric plastic ultrasonic probes, R.C. Chivers, P.A. Lewin 279

Letters to the editor

A review of the electrical hypothesis of sonoluminescence, C.H. Sehgal, R.E. Verrall 37
Comments on A.V. Clark and H.H. Chaskelis: Measurement of ultrasound reflected from ultra-thin defects, J. Szilard 35
Comments on 'On the mechanism of the photographic effect of ultrasound' by C.G. Stephanis et al, Nyborg, W.L. 87

Conference reports

Advances in underwater acoustics, Portland, UK (1 - 2 December, 1981) 189
IEEE ultrasonics symposium 1981, Chicago, USA (14 - 16 October, 1981) 89
Institute of Acoustics spring conference '82 Guildford, UK (29 March - 1 April, 1982) 238
International conference on acoustic emission and photoacoustic spectroscopy, Chelsea College, London, UK (21-23 July 1981) .93

IUTAM symposium on the mechanics and physics of bubbles in fluids, Pasadena, USA (15-19 June, 1981) 91
9th International symposium on non-linear acoustics, University of Leeds, UK (20-24 July, 1981) 92
Second European community workshop on ultrasonic tissue characterization, Nijmegen, The Netherlands (30 November - 2 December, 1981) 237
Seventh international conference on internal friction and ultrasonic attenuation in solids, Lausanne, Switzerland (6 - 9 July, 1981) 93
Seventh international symposium on ultrasonic imaging and tissue characterization, Maryland, USA (6 - 9 June 1982) 285
The 13th annual meeting of the British Medical Ultrasound Society, London, UK (14 - 15 December, 1981) 142
Ultrasonics International 81, Brighton, UK (30 June - 2 July, 1981) 40

Book reviews

Internal friction and ultrasonic attenuation in solids, Edited by C.C. Smith 93
Ultrasonic imaging, P. Greguss 191
Ultrasonics - methods of experimental physics, Vol 19, Edited by P.D. Edmonds 190

International news

Acousto-optics conference postponed 200
Advisory board welcome local member 6
Advisory editor for Belgium 6
Advisory editor for board from Soviet Union 53
Faculty staff change 102
Prize awarded to acoustic microscope pioneer 102
Ultrasonics International 83 chooses new venue 51
UI 83 for North America 200

Ultrasound companies merge 248
'UPS' system wins contract 102

New equipment

Acoustic ocean-current meter 147
Acoustic signal injector for system testing 101
A flexible ultrasound diagnostic imaging system 99
Area circumference volume computer 101
Atmospheric observation 199
Attenuation recorder monitors pulsed ultrasonics 197
Bench top cleaner 53
Broadband receiver 148
Colour indications assist Doppler blood-flow studies 195
Compact ultrasonic cleaner 197
Computerized obstetric recording system .100
Corona discharge detector 147
Depth sounder surveying 147
Detecting emissive leaks 148
Duel-element transducers 197
Echo-strength measuring 149
Faster cleaning for the beer industry 4
Fetal heart detector 55
Flowmeters clamp onto pipes 197
Flow rate control 246
Gated flaw alarm 53
Graphics analyser 245
Hand-held probe adapter 147
Heavy-duty welder 244
High-frequency welding 243
Hydrographic survey digitizer 149
Implantable crystal 246
Level control unit is microprocessor controlled 3
Linear scanner for soft-tissue investigation 244
Micro-controlled liquid level measurement 247
Micro-controlled scanner 148
Miniature probes for pocket sized thickness gauge 100
Minimum measuring thickness reduced ..247
Mini ultrasonic baths 247
Monitoring quarry ore 199
Multi-focus capability for abdominal scanner 198
Non-contact level control 5
On-mill weld scanner 3
Paranasal sinus diagnosis 243
Phantom imaging for transducer evaluation 100
Phased array imaging for echocardiography 196
Plastics assembly equipment 195
Plastic welding 198
Portable ultrasonic tester 243
Probe consultancy formed 5
Pulsed Doppler scanner 244
Real-time diagnostic imaging with multiple transducers 101
Real-time diagnostic systems range expanded 99
Remote distance measurement 199
Self-monitoring liquid level control 55
Software-based scanner 149
Thermosonic bonding 243
Thickness meter has liquid crystal display .57
Three-dimensional imaging scanner 100
3 kW pulses from gated amplifier 100
Transducer materials modified.....196
Ultrasonic gauge for corrosion testing 245
Ultrasonic pulser-receiver 246
Ultrasonic scanners for medical diagnosis .99

Ultrasonics is published every two months by the Journals Division of Butterworth Scientific Limited, PO Box 63, Westbury House, Bury Street, Guildford, Surrey, GU2 5BH, UK. Telephone 0483-31261. Telex: 859556 SCITEC G
